Problem Statement

- Challenges in streamlining the college admission process for prospective students.
- Need for a user-friendly and efficient system to provide accurate information and guidance.

Proposed Solution

- 1.User Interaction:** Engages users in natural language conversations, guiding them through the admission process.
- 2.Information Collection:** Securely gathers essential user data such as name, contact details, exam scores, and course preferences.
- 3.Query Handling:** Responds promptly and accurately to inquiries about course details, admission criteria, application status, and general college information.
- 4.User Guidance:** Offers step-by-step assistance on completing applications, submission deadlines, and required documentation.
- 5.Feedback Mechanism:** Incorporates user feedback to continuously improve response accuracy and user satisfaction.

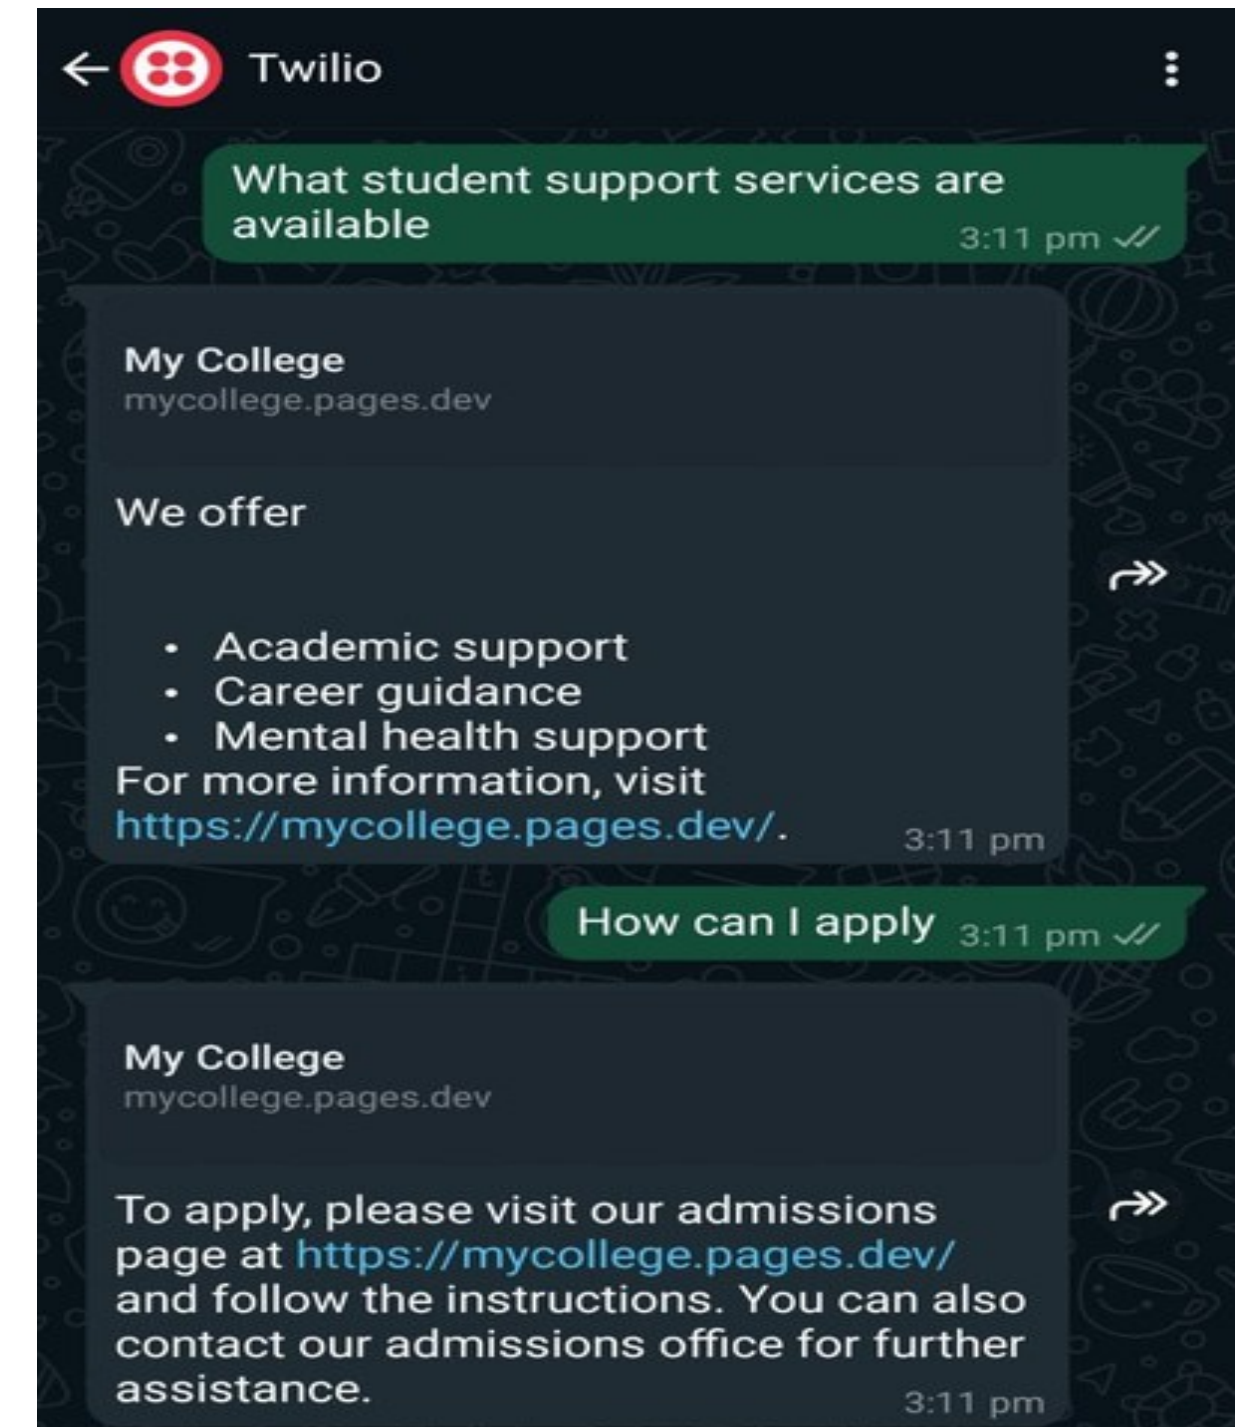

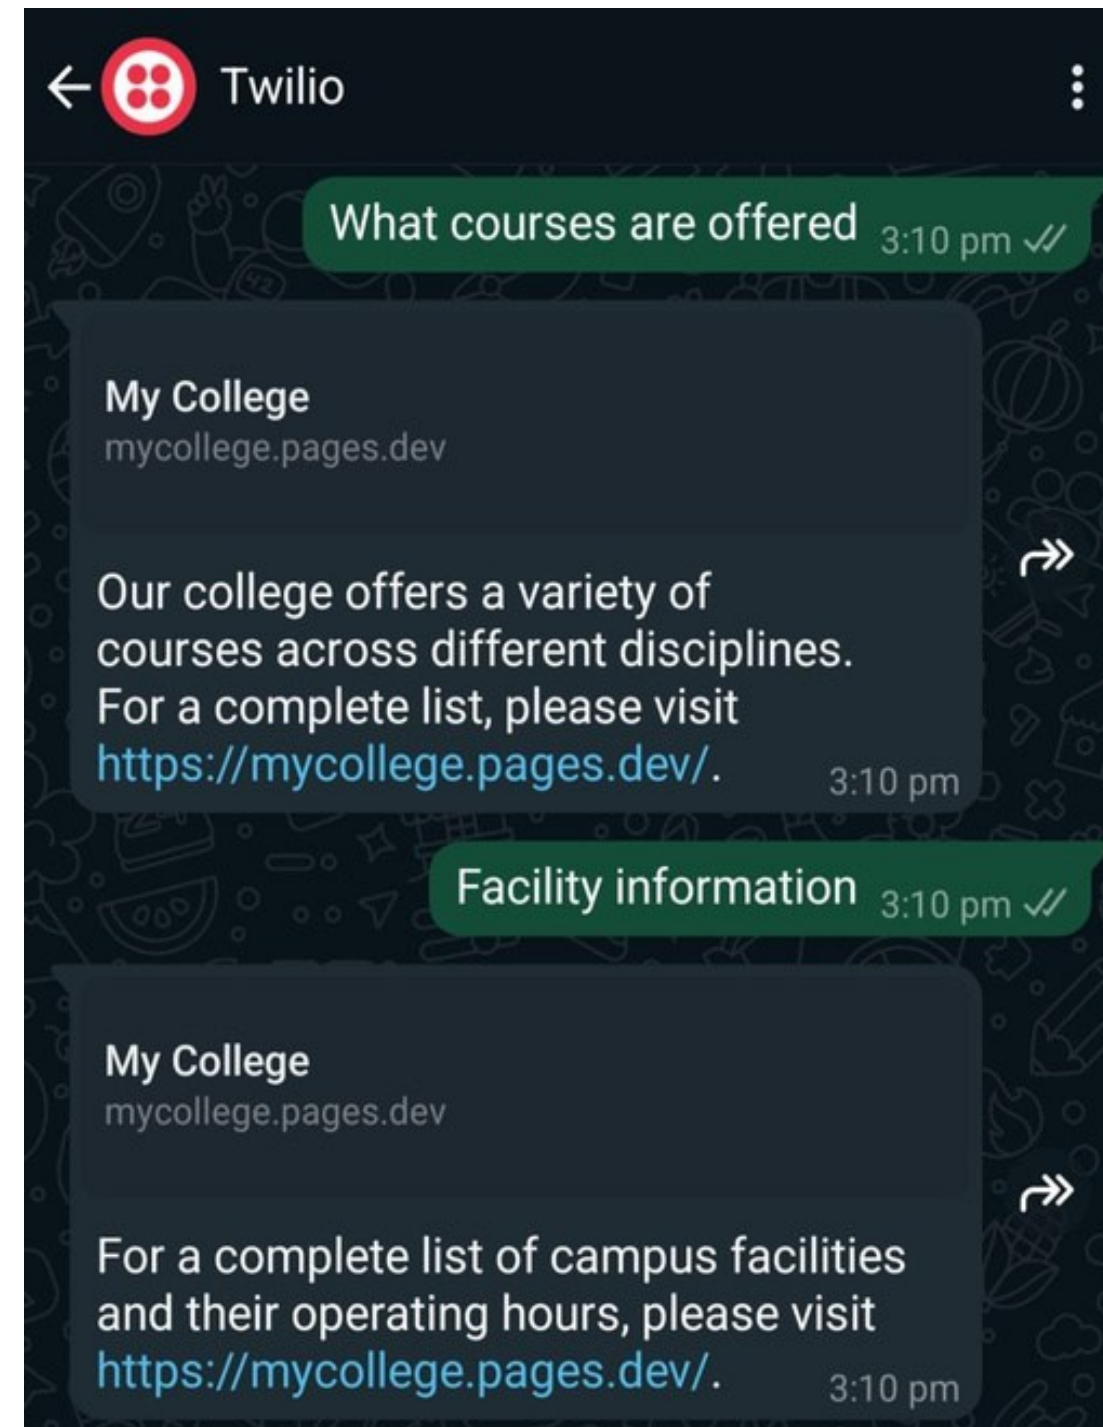

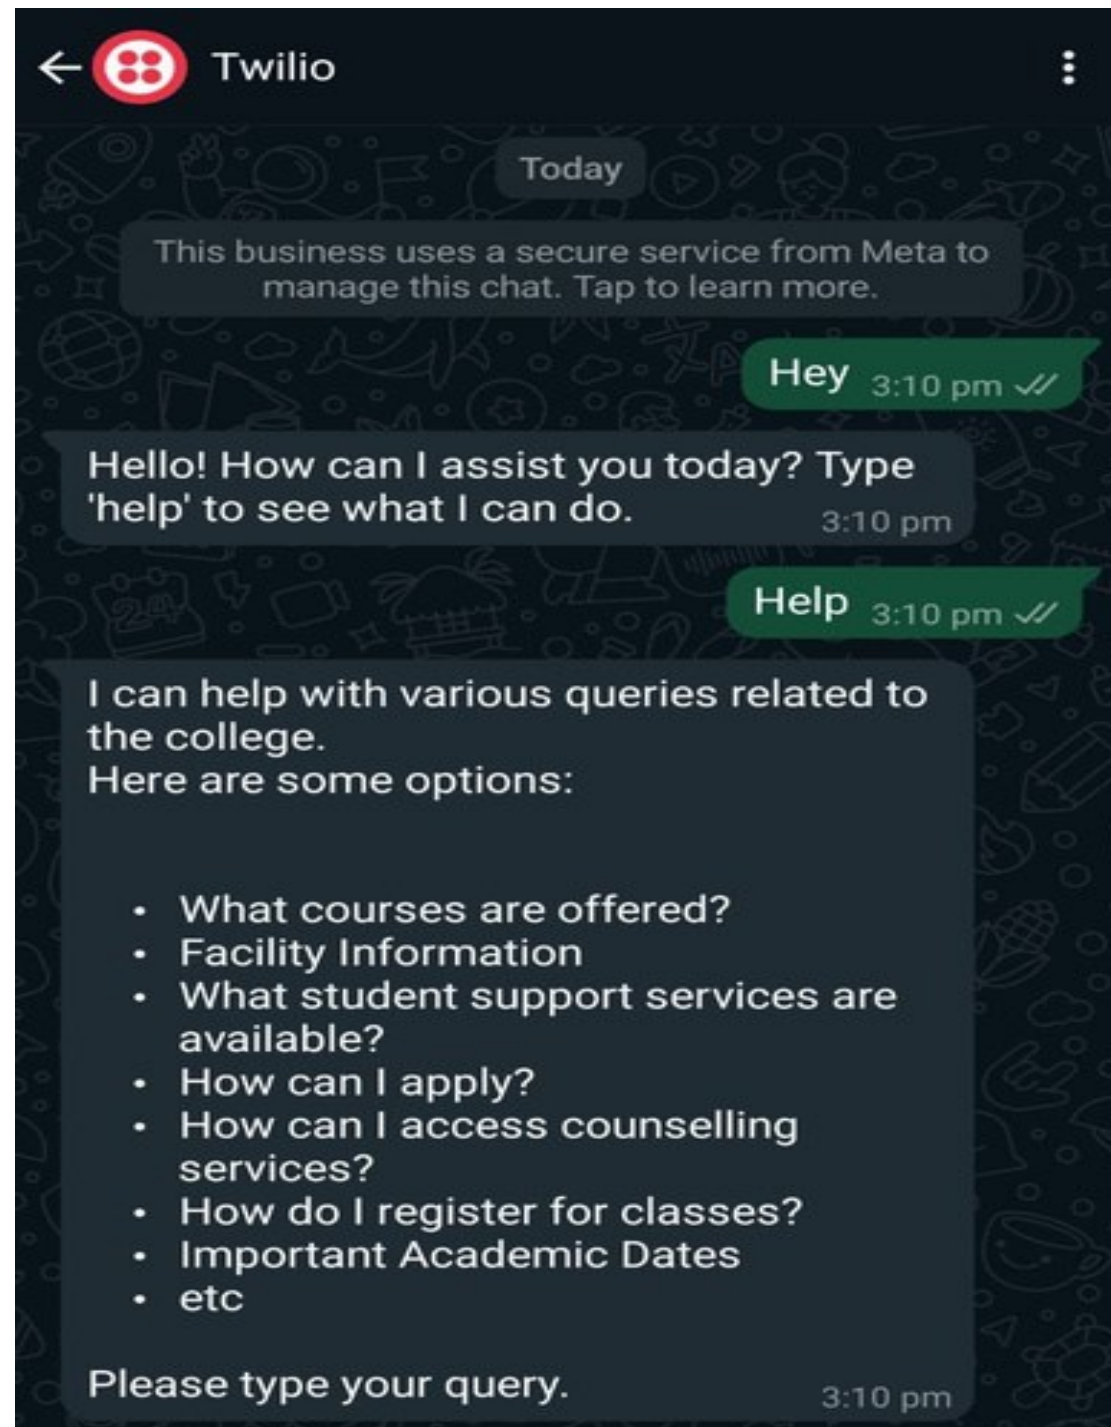

System Approach

- Technology Used: Use of IBM cloud lite services /IBM Granite is mandatory.
- System Requirements: Compatible with modern web browsers and mobile devices.

Result

- Developed a college admission chatbot aimed at simplifying and enhancing the application process for prospective students.
- Facilitates intuitive and efficient interaction through natural language processing capabilities.
- Ensures secure and confidential handling of user data throughout the application journey.
- Enhances user experience by providing timely and accurate information tailored to individual queries.
- Feedback mechanism enables ongoing refinement of chatbot responses based on user interactions.

Conclusion

- The college admission chatbot represents a significant advancement in improving accessibility and user experience in the admission process.
- By leveraging AI-powered natural language processing, it effectively addresses the informational needs of prospective students.
- Offers a scalable solution to accommodate future enhancements and adapt to evolving user requirements.
- Contributes to a streamlined and efficient admission process that benefits both applicants and the institution.

Future scope

- **Personalized Assistance:** Implement machine learning algorithms to offer personalized recommendations and adaptive guidance.
- **Multilingual Support:** Integrate language translation capabilities to cater to diverse applicant demographics.
- **Enhanced Features:** Incorporate virtual campus tours, interactive FAQs, and real-time application status updates.

course certificate 3

IBM SkillsBuild

Completion Certificate

This certificate is presented to

Mrinmoy Patra

for the completion of

**Lab: Retrieval Augmented Generation with
LangChain**

(ALM-COURSE_3824998)

According to the Adobe Learning Manager system of record

Completion date: 03 Aug 2025 (GMT)

Learning hours: 20 mins

THANK YOU
